

A Few Kind Words from Our Industry Colleagues

I have found NSM's Addiction Treatment Providers Program to be both very comprehensive in terms of coverage and very competitive in its pricing levels. The staff at NSM is always extremely helpful and responsive. Their knowledge of the industry has proven to be a key factor in understanding the complexities of the various types of treatment, and the unique claims that treatment providers face, which has resulted in more accounts written. I would highly recommend that agents/producers who want to specialize in the addiction treatment niche contact the ATP staff.

Orlando, FL Agency

The Addiction Treatment Providers Program offers a comprehensive range of coverage that satisfies all of my clients' insurance needs within a single program. This unique ability provides remarkable benefits to clients and brokers! The program team's genuine knowledge of the industry, collaborative approach to underwriting, and "Can Do" attitude is refreshing!

Philadelphia, PA Agency

NSM's exclusive Addiction Treatment Providers Insurance Program is one of the largest insurance programs in the country focused on behavioral healthcare providers and the treatment industry in all 50 states. In 2007 alone, the program saved our treatment provider members over \$1 Million on insurance costs while providing the most comprehensive insurance coverage available in the market. These are funds that go back into the operational and strategic initiatives of the association's provider members.
